

## LJF PROPERTIES

I will never forget the year I started my property business. 2020 has been a year we will all remember for the wrong reasons but I am using this experience as an extra drive to drive me even more than before if that's possible.

It has made me realise that when things don't go to plan everyone sticks together and throughout COVID-19 it has made me proud to be British and especially from Yorkshire.

I love people and the fact I will now be able to provide a service that isn't generally seen in this industry you are not just a number or a percentage you are people.
