

### PISANI DESIGNS

Annette works with clients of Finest Things Italian in Tuscany on two different developments starting in 2021. You can see links to progress images of the developments here once they get underway.

One is a fairly large development of 47 apartments where the brief is to style for holiday rental use while the other is a small development of 5 fairly large apartments which will be dream holiday homes for fans of Tuscany.

Annette is currently working on three residential projects in her home town of Brighton and one hotel project in Spain. In Brighton two of Annettes projects are listed building applications and property refurbishments. The listed building process is quite lengthy and involves a drawing submission, which once approved enables the redesign and build work to start. The build completion for these two properties is scheduled for April 2021 The hotel project in Spain is ongoing and the client has recently committed to a redesign of the hotel entry lobby. Completion of this is due October end 2020.

Finest Things Italian is pleased recommend Annette to any partner clients or indeed any of our consumer Members.
